2. The following is an examiner's statement of reasons for allowance:

Art Unit: 1722

The prior art of record fails to teach or suggest a foaming mold as recited in claim 1. The closest prior art is disclosed by JP 04-97806 (hereinafter "JP '806"). JP '806 discloses an apparatus for molding skin integrated foam which is provided with a terminal treatment chamber-tube (7) to which air is supplied. JP '806, however, fails to teach or suggest a plurality of tubes isolated and sealed from one another and a plurality of vents within one of the molds communicating with the tubes as defined in claim 1 of the instant application. Nor does any of the other prior art of record teach or suggest this combination of a plurality of tubes and plurality of vents in one mold in a foaming mold apparatus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The following cited references are deemed pertinent to the instant application:
